## Earth Machine Order

### Earth Machine Compost Bin

Last year Washington and Lee University's Biology and Facilities Management Departments sponsored an Earth Machine truck load sale. The compost bins have been very popular and I have had a lot of inquires about how to go about purchasing one. Due to the response Washington and Lee's Biology and Facilities Management departments have decided to run another sale. Orders are now being accepted for the Earth Machine. The composters are sold (at cost) for \$36.00 each.

To place your order contact Chris Wise, Washington and Lee at 540-458-8253 or email him at [jwise@wlu.edu](mailto:jwise@wlu.edu) . You may also contact me at 540-463-2437 or email me at [recycling@co.rockbridge.va.us](mailto:recycling@co.rockbridge.va.us) . I will be happy

to take your order and forward it to Chris. All orders must be placed by March 23, 2009.

To learn more about the Earth Machine Compost bin please visit their website at [www.earthmachine.com](http://www.earthmachine.com) . When you reach their site click on the right side of the page to view information for residential use. They have lots of helpful information about composting. It is really very simple. Don't let it intimidate you. Believe me if I can do it anyone can and it is rather fun to experiment with.

The Earth Machines will be available for pick up at the Earth Day Festival on April 25, 2009 in the parking lot at College Square Shopping Center. If you are going to be unable to pick your bin up on that day please contact me at the Recycling Office to make other arrangements. Any bins not collected by the end of the day will be sold unless arrangements have been made. Deposits are not being required so please make sure if you order a bin that you plan on collecting it.

We look forward to seeing you at the Earth Day Festival. This and many other events will be taking place that day.
