December 11, 2008

Dear Community Members,

As economic conditions lead to tough funding choices in the Rockbridge region, the Board of Supervisors recognizes the need to call relevant issues to public attention and to invite their open discussion. As a leader and stakeholder in the community and region, we are pleased to share with you a copy of the white paper entitled, "Joint Schools, School Facilities and Superintendents: An Alternative Approach to Address Community Public Education". The Board of Supervisors looks forward to an open discussion on community public education and welcomes your comments and input.

Sincerely,

Claire A. Collins
County Administrator
